

DCI/IC 77-1742

15 NOV 1977

MEMORANDUM FOR: Director of Central Intelligence

FROM: John N. McMahon  
Acting Deputy to the DCI for the  
Intelligence Community

SUBJECT: SI/TK Clearances for ☐ Contractor Personnel

25X1

1. SI/TK clearances are requested for the following named personnel of  who are assigned to work under an existing contract with the IC Staff:

25X1

25X1

2. These clearances are essential to the work of planning and implementing a management information system concerning computers, networks, data bases, usages, costs, and analyses of system effectiveness. This Community inventory of automated systems, equipment, and networks is an indispensable tool for planning and implementing a comprehensive Community-wide Information Handling System, under DCI AEGIS, and such an inventory has been called for by Congressional committees.

3. It will be impossible to accomplish this comprehensive planning for the Community unless the contractor personnel involved have access to these compartments, which provide a large amount of the intelligence information that Community ADP and Telecommunications must service.

4. The contractor's original request was for clearances for 13 people. We have reduced this number to a minimum requirement of the six persons named above. This contractor is likely to be at work on this project for the next two years.
